

WP 2 Legal Module

Lucilla Gatt - Ilaria Amelia Caggiano - Delia Boscia - Flora Nurcato

- Who we are
- What we do
- Our team
- Our role in the project
- WP# - Planned Activities

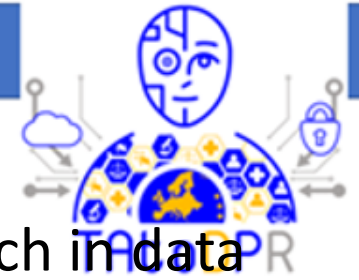

- **Università degli Studi Suor Orsola Benincasa (UNISOB)** (www.unisob.na.it) is one of the oldest universities in Italy, with traditional vocation in human sciences and law, and with the renewed aim to bring the world of law related sciences and humanistic knowledge to the experiences of the most advanced scientific and technological development. This has been done by both creating the Interdepartmental Research Centre "Scienza Nuova" (www.centroscienza Nuova.it, with particular regard to UTOPIA Lab), aimed at establishing a bridge between humanities and technologies, and in light of the recent establishment of a PhD in Humanities and Technologies.

-

- UNISOB has authoritative experience in law research and teaching, also in the field of data protection and privacy. The TAToDPR team at UNISOB has previously organized one of the first courses on Data Protection in Italy in 2017 and a research project on privacy has been conducted with a methodological mixed approach (legal and behavioural) in the UTOPIA's Lab.
-
- The TAToDPR team at UNISOB is also characterized by high specialization in the areas of harmonization of European law. The field of research has been formalized with the constitution of the Research centre ReCEPL (<https://www.unisob.na.it/ateneo/c008.htm?vr=1>) .
-

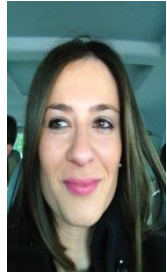

- Prof. Lucilla Gatt, Full Professor of Private Law, with a long experience in research in data protection, privacy, and impact between legal studies and technologies.
- The project manager is:

- The other coordinator contact is:
